Draping Techniques for Beginners

Francesca Sterlacci

Draping: Techniques for Beginners, by Francesca Sterlacci and published by Laurence King in January 2019 is a comprehensive, step-by-step guide to all aspects of draping for beginners.

Draping is the art of manipulating fabric directly on the dress form. It is the most creative way for a designer to turn design ideas into reality.

In this book, readers will start by learning the basics, including how to use a dress form and how to prepare the muslin for draping. They will then move on to learn how to drape basic bodices, including a range of darts and necklines, as well as basic skirts, and finally dresses. Each lesson in the book is illustrated in meticulous detail by a series of step-by-step photographs as well as catwalk images.

Videos to accompany the book are available at www.universityoffashion.com
